HoD's Foreword

Welcome to the 2026-2027 Academic Year! A specially warm welcome to all new students and staff who joined the Department in the past year, some of which are returning after a long period away!

This newsletter reflects a vibrant, award-winning department with strong research, teaching, and community engagement, and a commitment to sustainability, diversity, and equality.

Once more our Department demonstrated strong research leadership, talent development, and a thriving, inclusive culture, with a continued focus on interdisciplinary collaboration, strategic growth and impact.

Welcome new members!

Team Annette: Promise Emeh, Soumi Mukherjee, Varun Muddaluru;

Team Brona: Gargi Tewary; **Team Chris:** Ellie Curran, Elif Erdeve,

Jessica Lambe; **Team Jochen:** Aleksandr Kalmykov, Amelie Behrends, Carolien van der Hoeven, Kan Wu, Khushboo Aggarwal, Kristin Entrop, Menatallah Rayan; **Team Niamh:** Deniz Ozlem Er, Fernando Nery do Vale, Yuchao He ; **Team Omar:** Eve Conheady, Joe Mernagh; **Team**

Shona: Conor Healy; **Team Simon:** Faith Ogundimu, Huda Fadlelseed;

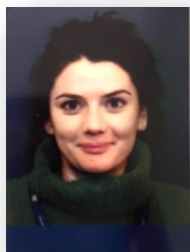

Team Sinéad: Darren Gilhawley; **Team Tobias:** Lilia Marinova, Valentina Salari.

Graduations Hats!

Congratulations to the new Doctors! Barry Maguire, Julian Larkin, Mark Kelly (Valedictorian), Sharada Bainsoor, Suzanne Murphy, Yu Wang.

Key Appointments

A warm welcome to **Dr Sinéad Kinsella** who joined the Department in October as a GEM Lecturer (a little more about Dr Kinsella below).

COMMS TEAM

Dr Isabela Aparicio

Dr Helena Bonner

Meghma Mitra

Dr Sinéad Kinsella

*Want to join
the team? Let
us know!*

Got a suggestion?

If you have a suggestion to improve our department's operations and/or this newsletter, drop us a line!

You can email the Comms Team directly or leave a note in our suggestion box.

Projects & Grants

Dr Chris Greene has been named a 2026 Lister Prize Fellow, receiving £300,000 to support pioneering research into the blood-brain barrier. Awarded by the Lister Institute of Preventive Medicine, the prize provides recipients with £300,000 in flexible funding over five years, enabling them to pursue ambitious and innovative research programmes. This year, eight researchers from across the UK and Ireland were selected as Lister Prize Fellows, with Dr Greene the only researcher based in Ireland to receive the award. If you are interested in applying for this grant, you can check the link [here](#).

Prof Jochen Prehn and **Prof Tríona Ní Chonghaile** are amongst the RCSI Cancer Researchers taking part in the second phase of the **Precision Oncology Ireland** programme, co-funded by Research Ireland. POI-2 will build on the success of Phase 1 by deepening interdisciplinarity through stronger clinical engagement, broadening scientific scope and infrastructure, enhancing patient and public involvement, expanding training opportunities, and fostering collaboration across the cancer research and healthcare communities from the outset. You can read more about the Precision Oncology Ireland programme [here](#).

Honours & Awards!

Prof David Henshall was nominated *Ambassador of Epilepsy* by International League Against Epilepsy during the 36th International Epilepsy Congress in Lisbon on September 1st 2025.

Dr Suzanne Murphy (Team Annette) won the Freyer Medal during the 50th Sir Peter Freyer Memorial Lecture & Surgical Symposium in Galway on September 5th 2025.

Prof Tobias Engel and **Dr Orlaith Brennan**

attended the Athena SWAN

Award ceremony at SETU Carlow on November 12th to receive our Department's Bronze Award Renewal.

On January 2026, **Prof Kevin McGuigan** was one of the recipients of the DCU Alumni Awards 2025. The DCU Alumni

Awards honour alumni who, through their exceptional ability and leadership, have achieved excellence in their chosen fields of endeavour.

On the 2026 Research Day on March 3rd, **Jordan Higgins** and **Erva Ghani (Team Omar)** were awarded the Invention Disclosure Award as part of the Vice-Chancellor's Innovation Awards 2026.

Last, but not least, **Prof Christopher Torrens** was one of the recipients of the

2026 Excellence in Teaching Award Winners during the Medicine graduation in June.

Questions were raised whether Prof Torrens' award was truly this year, but this picture settles the matter.

In the News!

Prof Kevin McGuigan featured on The Irish Times with his Solar Disinfection research and how it is creating real change for population health in Malawi.

You can find the whole article [here](#).

STAFF SPOTLIGHT

Dr. Sinéad Kinsella is a Lecturer and Principal Investigator at the Royal College of Surgeons in Ireland (RCSI). Sinéad completed her PhD in neuroimmunology at RCSI and carried out post-doctoral research at the Fred Hutchinson Cancer Center in Seattle USA, where she focused on identifying molecular targets to enhance T cell reconstitution using preclinical models of thymic damage including age, acute radiation exposure and chemotherapy.

During this time Sinéad was received a New Investigator Award from the American Society for Transplantation and Cellular Therapies and identified several therapeutic strategies to enhance thymic regeneration after damage. Sinéad later obtained a Senior Staff Scientist position in the Translational Sciences and Therapeutics Division at the Fred Hutch where she focused on enhancing TCR therapies in the solid tumour, specially focusing on strategies to limit immunosuppression and enhance adoptive cell therapy, and obtained competitive NIH funding for this work.

Sinéad returned to Ireland in 2026 to establish a T cell therapies research group at RCSI.

LOOKING FOR TRAINING?

You can find all training opportunities at the Staff Portal [on this link!](#)

International Food Day!

On April 12th we hosted our first International Food Day and it was delicious! We enjoyed a taste from Argentina, Brazil, China, Iran, Ireland, Italy, Kenya, Morocco, Russia, Spain, and Turkey and we got a prime location for the celebrations (Board room) under the watchful eye of RCSI's greatest women.

Physiol Outreach

Another Mini Science TY Programme completed for 2026!

We hosted a lovely bunch of students from Kerry, Kilkenny, Dublin and Offaly. They enjoyed 3 days that included Lab Skills, a Genomics

Workshop, Career Talks, an eye opening Simulation Tour and plenty food for thought on Health and Well Being that will stay with them for a long time. They also got a good understanding of the variety the research themes that we study here in the department as well as in other departments in RCSI. Thanks to all those who have participated in working with us to enthuse these potential students/researchers about Science, Health and Well Being. Thanks to the Research Office and Department of Physiology and Medical Physics, for their ongoing support for this programme. Thanks to the catering department for the lovely food!

We also had a visit from secondary school students from St Raphael's College in Dublin. These students enjoyed seeing the RCSI campus and had an opportunity to speak with the departmental staff and students about research and day to day life in the labs and the college.

Networking Day & Physiology Awards 2025

We had another great team day facilitated by our colleagues from the Centre for Positive Health Sciences, **Dr Mary Collins** and **Dr Padraic Dunn**. It was a great opportunity to reflect on our Department's achievements as well as on the challenges faced by different groups, and to brainstorm action points.

Our annual social gathering took place at the Chancery Hotel, including the traditional Secret Santa, and Departmental Awards.

Congratulations to the 2025 winners: *Elena Langa (Team Player of the Year), Éanna Ryan (Mentoring Champion), Pablo Quintana (Most Engaging Progress Report) and Jaideep Kesavan (Most Impactful Publication).*

Many thanks to everyone who took part in the voting and to the reviewing committee!

Staff EDI Networks

RCSI has five staff networks. These are driven by staff interests and supported by the EDI Unit. The EDI Networks are championed by Senior Management Team sponsors and driven by staff themselves with rotating staff chairs each year. Staff networks include: Age Friendly Network, Intercultural Network, Parents and Carers Network, Pride Network, and Women’s Network.

Staff and Student EDI Forums

EDI Forums meet three times per year and work to address priority EDI issues as well as develop/implement dedicated policies and action plans. Focus areas include: Ending sexual violence, supporting survivors, promoting consent (ESP), Race equality, and VisABILITY. More information can be found [here](#).

RCSI Repository

If you have a publication, consider submitting it to the RCSI Repository!

It's a safe way to make your work publicly available in line with the guidelines of funding agencies.

[You can access RCSI Repository here.](#)
